

HON.
NATHAN NEUDORF
MLA, LETHBRIDGE-EAST

Dear friends,

Every Albertan deserves reliable health care, safe communities, and an education system that supports the needs of students. The United Conservative Government is focused on delivering the services families like yours depend on, while protecting the jobs and opportunities that make our province strong.

The United Conservative Government is providing a record \$28 billion in funding to refocus Alberta's health care system so every patient can get the care they need, when, and where they need it. That means better access to family doctors, shorter wait times, and more support for the frontline workers who care for our loved ones.

In Alberta classrooms, the United Conservative Government investing in the future with nearly \$9 billion in funding to build and modernize more than 100 schools across the province while hiring new teachers and support staff. These investments will make sure every student has a safe, supportive place to learn and develop new skills close to home.

The United Conservative Government is also supporting law enforcement to keep communities safe. That includes hiring more sheriffs, expanding neighbourhood safety programs, and introducing electronic monitoring for high-risk offenders on bail. We know that every family deserves to feel secure, no matter where they live.

United Conservatives are standing up for Alberta. We're fighting to protect our constitutional jurisdiction, grow our energy industry, and advance a new West Coast pipeline project with support from Indigenous and industry leaders.

Our focus is simple: support what matters most to Alberta families. With better schools, reliable health care, safe streets, and good jobs, we're building a strong Alberta today and for the future.

NATHAN

BUILDING LETHBRIDGE-EAST'S FUTURE

- ✓ **\$2 million from the Alberta Surgical Initiative Capital Program will support increased surgical capacity through the expansion, renovation, and optimization of existing facilities, along with investments in Chinook Regional Hospital's intensive care unit, adding 34 new ICU beds.**
- ✓ **\$9.2 million towards the Lethbridge Water Treatment Plant upgrade**
- ✓ **\$116,388 towards the Interfaith Food Bank building upgrades**
- ✓ **3 new elementary schools and 4 school modernizations**
- ✓ **\$10.2 million to the Lethbridge Housing Authority's construction of a new supportive housing complex**
- ✓ **\$2.23 million for new affordable housing units across the Chinook Regional Hospital**
- ✓ **\$22 million for renal dialysis at Chinook Regional Hospital**

DELIVERING RESULTS FOR ALBERTANS

This fall, our United Conservative government set a clear path forward with the Speech from the Throne: protecting your freedoms, making sure the services you count on are strong, and building real prosperity for every Albertan.

FOCUSED ON THE ISSUES THAT MATTER MOST:

- Defending Alberta's constitutional jurisdiction
- Pursuing greater control over immigration
- Building schools
- Helping students reach their potential
- Delivering health care when and where it's needed
- Keeping communities safe

On Nov. 27, Alberta and Canada inked a historic deal that will more than double oil exports to Asia, remove laws that are holding back our economy, advance Indigenous partnerships, cut emissions, and create thousands of jobs for hardworking Albertans and Canadians – marking a new era of growth and collaboration.

Every day, we're focused on getting things done – making life better for you and building a stronger Alberta for the next generation.

MORE ON 2025 FALL SESSION

Over the fall session, this United Conservative government brought forward more than 15 new laws to improve health care, keep communities safe, cut red tape, create jobs, and stand up for Albertans.

With our help, the government launched Acute Care Alberta and Primary Care Alberta to make it easier for you to get the care you need, when you need it, and to reduce wait times.

We also worked on strengthening the Alberta Sheriffs Police Service to give law enforcement more support and to keep our communities safe.

Since 2019, cutting red tape has saved Albertans and local businesses more than \$3 billion.

With Alberta growing faster than ever, our team continues to work hard at keeping it the best place to live, work, and raise a family.
